

Hub & Spoke System Grantee Profile: BAART Behavioral Health Services, Inc. San Francisco

The California Hub & Spoke System (CA H&SS) is a component of the California Medication Assisted Treatment (MAT) Expansion Project, and is being implemented as a way to improve, expand, and increase access to MAT services across the state. Each CA H&SS consists of a "Hub" that serves as the addiction center of expertise, and multiple "Spokes" that act as clinical service providers.

About:

BAART Behavioral Health Services, Inc. (BBHS) was among the first private providers in California to provide MAT. BBHS is a large, national provider with previous experience developing, implementing, and operating in a Hub & Spoke System. BBHS operated 24 Narcotic Treatment Programs (NTPs) in ten California counties, serving 13,000 patients a day.

INNOVATIONS

Motivational Interviewing. All Hub and Spoke staff receive motivational interviewing training. Staff learn to conduct intake and treatment sessions in a way that considers cultural norms and beliefs, while promoting the client's self-esteem, dignity, and self-worth.

Consumer Engagement. Weekly patient educational groups will be offered to increase awareness of grant services.

Marketing Campaign. The program's media campaign includes radio station ads, local news media, internet media services, marketing flyers and/or brochures and public access TV to increase awareness of grant services.

A team dedicated to outreach and consultation, the MAT Team, engages in direct outreach to populations identified as being at risk for OUD, on the streets and at partner clinics and community based organizations.
